<p>Court descriptif du projet</p> <p>Immense focus is placed upon student orientation, but guidance stops at a critical point - how students present themselves at interview. This seminar fills that gap. "Your Image, Your Future, Your Success" teaches students to present themselves credibly and impeccably for interview by:</p> <ul style="list-style-type: none"> - Upgrading their appearance (clothing, colour and personal grooming) - Reinforcing positive body language (including the art of the handshake, eye contact, a smile, posture...) - Perfecting the voice (clear, calm, audible, energized and no slang or colloquialisms) - Enhancing confidence and reducing stress levels (wearing the "mask of confidence" and other tips and tricks to perform at optimum level) <p>The seminar is 3 1/2 hours long and comprises 3 modules:</p> <ul style="list-style-type: none"> - Dressing for Success! - Presenting with Impact! - Colours that Wow! <p>It is designed to educate - to tell students all the things an interviewer never explains when they fail to get the job, apprenticeship or course placement. Through this seminar, we are able to re-wind the clock and provide essential tools to reinforce their image before the interview starts - maximizing their chances of success.</p> <p>The seminar is presented in simplified, modified English to ensure maximum understanding.</p>
